SPANISH BUTCHERY

Men, Women and Children Killed by Weyler's Soldiers.

EITHER SHOT OR BAYONETTED.

The Town of San Miguel de Pandrome Captured First by the Patriots, but the Garrison Returned to Splll Blood-Death of Delgado-Ravages of Smallpox and

JACKSONVILLE, Fla., Jan. 21.-The Cubans here have received a full report of another butchering raid by Spaniards, one of the most cruel yet reported, since Woyler began his bloody work. Five hundred patriots, under command of Colonel Francisco de Paulo, dashed into San Miguel de Padrone, Havana province, Saturday night. The Spanish garrison, consisting of 600 men, withdrew from the town without firing a gun. The Cubans held possession for three hours, looting the stores, public buildings and many of the residences occupied by Spanish families. They captured the mayor and forced him to deliver the tax money in his possession, amounting to \$3,000. After firing the business portion of the town and several private residences the Cubans with-

the flames and saving their effects.

While thus engaged the Spanish forces returned, and, it is alleged, opened fire on the men, women and children who were fighting the flames. Volley after volley was poured into the helpless inhabitants, many of whom, in their terror, rushed into the burning houses and were cremated. The Spaniards then charged with their bayonets through the streets, sparing neither women nor children, but piercing them through without merey. without merey.

Forty persons were killed outright, 18 of whom were women and children. Sixty others were wounded, some of them fatally. Nearly 100 persons fell victims to the cruel butchers.

In reporting the affair the Spanish commander, it is said, stated that the Cubans attacked the town, but were repulsed with heavy loss. He then adds that 12 of the inhabitants were killed by Cuban bullets.

DELGADO IS DEAD.

The Daring Young Correspondent Breathes

Mail and Express, who has been a prisoner in Havana, died in the hospital there Tuesday night.

Henry Delgado's home was at Hudson, N. Y. General Fitzhugh Lee had interested himself to the utmost in the ease of the unfortunate. Delgado was captured by the Spaniards while ho was lying ill in an insurgent hospital in Pinar del Rio, in December last. From that place he was brought to San Ambrosio hospital, which is set apart for political prisoners.

The immediate cause of Delgado's death was an abseess of the stomach, which refused to yield to treatment. Consul General Lee's reports show that the man had the best of attention ever since his ease was brought to his attention. Dr. Burgess, the resident inspector of the United States marine hospital service in Havana, was designated to attend the siek man and the Spanish authorities at the request of General Lee furnished the best accommodations in the hospital that were obtainable under the eircumstances.

Delgado suffered horribly from neglect, it is said, in the early stages of his ailment, before he was arrested. For 10 weeks he lay in a bare hut almost without attention. About Dec. 10 last he was found by the Spanish forces in Pinar del Rio, and sent under arrest to Havana. Upon discovering how ill he was the man was removed to San Ambrosio hospital, and some weeks ago an operation was performed upon him, the abseess in the stomach being cpened. This failed to heal and the exhrustion that followed doubtless was the cause

Assistant Secretary Rockhill, upon receiving the news of Delgado's death, promptly notified by telegraph his fam-ily in New York, and also informed them that they were at liberty to have the remains removed from Cuba and shipped on the next steamer from there. Word was also sent to the New York merchants who have interested themselves in the case of the unfortunate correspondent.

HAVANA DISPATCHES.

Nice Little Stories Told by the Spanish Censorship.

HAVANA, Jan. 21.—Captain General Weyler arrived yesterday at San Jose De Lajas, in Havana province.

Several skirmishes have occurred in the provinces of Santa Clara and Matanzas. A Spanish column has destroyed several camps and the insurgents left 27 killed, among them being a captain. Three prisoners were also taken and 10 firearms.

The force of the battalion of San Quintin and the crew of the gunboat Delgado Parejo have effected a landing at Punta Caoba, in Pinar del Rio province, and destroyed an insurgent camp, killing 10 men.

Many men continue to come in from the insurgent camps in Pinar del Rio and surrender without their arm. They are put in jail as political prisoners.

YELLOW FEVER AND SMALLPOX. Disease Threatens to Play Greater Havoc Than Fire or Sword.

HAVANA, Jan. 21.-There are now 2,063 cases of smallpox in Havana. At Guanajay, in Pinar del Rio, which has only 10,000 inhabitants, there are 467 cases. Yellow fever and malaria are also ravaging the country, and it may be safely affirmed that the sanitary con dition of Cuba is a far greater danger to the United States than the much feared bubonic plague of India.

At the end of March the depressing

warm weather begins hero and then diseases of a contagious nature spread

twice as fast as during the winter.
Cuba is now a focus of disease. The smallpox was introduced here by the 200,000 soldiers from Spain. The Spanish common people are not cleanly in their habits, and, moreover, they come to Cuba erowded by thousands into the dirty steamers of the Compania Transatlantica, in which no well bred American would travel.

Under such conditions these soldiers land in this city, where there is no sewerage system.

There is no hope of improvement in this state of things under Spanish domination.

CUBA'S RESOURCES.

She Could Rank With the Foremost Conntries of the World.

Washington, Jan. 21.-In answer to what he conceives to be a popular demand on the part of the American people for information as to the productive powers of Cuba, United States Consul Hyatt at Santiago has supplied the state department with an interesting report devoted entirely to a concise yet complete description of the enormous natural resources of the Queen of the Antilles. He says that Cuba should rank among the foremost communities of the world, and he believes she will soon attain this distinction, whenever a stable government and cheerful obedience to the powers that be present to the home-seeker and investor conditions that will make home pleasant and eapital se-

MAN OF MANY MISFORTUNES.

Seven Fingers and One Thumb Sawed Off at Different Times.

SHELBYVILLE, Ind., Jan. 21. - The most un fortunate man in this place as regards accidents is Mr. Charles Spurlin. He is an employe in a furniture factory, where, at different times, he has had three fingers cut off of one hand and his thumb and one finger off the other.

Last evening, just before quitting time, Spurlin was running a doublegroover containing four rip-saws. He had one piece to run through, but in doing this he placed his left wrist on the saws, almost severing the hand and eutting the tips off the remaining three good fingers. Spurlin is married and

Destitution in Chicago.

CHICAGO, Jan. 21.-More destitution now prevails in Chicago than for 25 years past. The bureau of associated charities says that hundreds of families are starving. A shocking case of destitution was reported. A man was found sick with pneumonia, lying on a floor in front of a leaking faucet. The room also sheltered the man's wife and one ehild, while the corpse of another child lay in a corner covered with rags.

JOSEPH GRAY MURDERED.

An American Killed in the Mountains of Mexleo.

Pomona, Cal., Jan. 21.—Henry Gray, who recently went to Mazatland, Mex., to visit his brother, Joseph Gray, a well known gold miner of Arizona, and a graduate of the State University of California, writes that the latter has been murdered in the mountains, 47 miles from Mazatland. Joseph had been in Mexico two years looking after his mining interests, which he had in connection with Richard Gird, the sugar beet millionaire of China. Last October he found what seemed a very valuable gold mining prospect in the mountains near Mazatland, but because of the mining laws, by which it is hard for alieus to make claims to discovered. for aliens to make elaims to discovered mines, he kept the location of his find secret, and waited until influential and wealthy American capitalists should arrive from the City of Mexico to aid

Gray kept his secret well, though whenever he had occasion to go to the mountains he was stealthily followed by some Mexicans. The last seen of him was early Christmas morning, when he informed the hotelkeeper that he was going to look over his mining

property.

Four days later his mutilated body was found in a canyon in the San Lorenzo mountains. He had evidently been shot with a Winchester riftc. His head had been severed from his body and hidden in the bushes two miles further up the canyon. His clothes were eut nway, so us to prevent identification. The authorities in Mexico have been investigating the case, but they have not as yet found the least elew to the identity of the murderers.

Joseph Gray was born in Portland, Or., 35 years ago. He was brought up in Sacramento, where his relatives still reside. He was a first cousin of United States Senator Wolcott of Colorado, and is heir to \$75,000 from an aunt in Oregon. At the University of California he ranked high as a mineralogist. He leaves a wife and an infant son in Oakland. He was one of the most successful young gold miners in central Oregon five years ago.

The men flooded the country with bogus bank drafts, upon which they realized thousands of dollars. Thomas was arrested in New York and made a confession, implicating the other men. Peters was caught in Chicago, and extradited to this city.

Conners was sentenced at Flint. Mich., for one year for forgery, the sentence having been greatly mitigated by the conrt on account of his confessions which included strong testimony

against the others. Smith has never been eaught. Peters is said to have been the man who made the lithographing stones from which the bogus drafts were

Elevated Road Unprofitable.

Cincago, Jan. 21.—The Metropolitan West Side Elevated road is in the hands of a receiver. A bill to foreclose the mortgage protecting the issue of \$15,-000,000 of bonds was filed in the federal court yesterday afternoon, and Judge Showalter appointed Dickerson MacAllister, the chief engineer of the road, as the receiver. The read is \$37,000 in default on the August interest and unable to pay the February interest due in a few days. An effort has been on foot for some time looking to the extension of the bond issue in order to tide over the affairs of the company, but it has been unsueeessful.

Seventeen Families Afflicted With a Peculiar Malady.

SOME ON THE VERGE OF DEATH.

They Can Not Sieep or Rest at Night and Keep Pluing Away Until They Are Mere Skeletons-Fire at Middlelown-Demon Ira Makes Threats Offier Ohio Stale

Toledo, Jan. 21.—Richfield Center, a little village in this county, 17 miles south of here, is in the midst of a genuine witchcraft scare. The little community is composed principally of Germans and are thoroughly convinced that they are being made the victims of some witch or other agent of his satanic majesty. There are 17 families afflicted with the peculiar malady. The thing has been going on for nearly a month and some 30 persons are on the verge of death.

The peculiar malady seizes a whole family nt a time from the youngest to the oldest. They can not sleep or rest at night, and keep pining away until they become mere skeletons. The symptoms in all cases are similar. Several of those afflicted claim that they are being constantly pursued by black cats ing constantly pursued by black cats, which make faces and snarl at them. Some of them also claim that certain rooms in their houses are infested with the strange evil spirit, while other

rooms are free from its influence. A. M. Miller came to the city and reported the matter. He is a victim of the strange disease, and had to be carried to and from the carriage which conveyed him, owing to weakness. His wife and four sons are down with the

disease and are likely to die.

Richfield Center is located 10 miles from a railroad station. Mr. Miller says that the people firmly believe the whole thing is the work of some witch whom they can not locate.

Some of the horses, eattle, sheep and swine are victims of the disease.

The people have burned their featherbcds and resorted to other ancient methods in the hope of getting rid of the spell, but they elaim they can not shake it off. Physicians can not diagnose the malady, but assure the patients

that it is due to natural causes, possibly

It is claimed from other sources that the indebtedness of Cashier Youtsey to the bank will reach \$250,000, and although he has turned over real estate and securities estimated to be worth \$150,000, it will not be possible to realize more than one-half his indebtedness.

MR. FRANK P. O'DONNELL is announced in this issue as a Democratic candidate for County Attorney. He was the nominee four years ago and was defeated by only a few votes. It has been his intention all along not to enter the race this year, but at the urgent solicitations of many of the prominent Democrats of the county he has changed his mind, and ls in the fight. Mr. O'Donnell is one of the brightest young attorneys at the Maysville Bar, and by his upright and gentlemanly conduct at all times and his devotion to his party he has won a host of friends throughout the county who will gladly rally to his support in the present contest.

Tims country's foreign trade last year is regarded as remarkable, all things considered. The exports of merchandise exceeded one thousand millions of dollars, beating the country's record, while they exceeded the imports by three hundred and twenty-five millions of dollars, which is twenty millions larger than the great trade balance in our favor in 1878, the largest heretofore known. We imported fifty millions more gold than we exported, reversing the current of several years past.

And just think, all this occurred under the Wilson bill.

A CITY WITH NO TAXES.

"There are many large cities in Europe where the taxes are so small as to be scarcely felt," says the Grocers' Journal of Commerce. "There is one-Glasgow -where the taxes have been entirely abolished. And yet all of these cities are well paved and lighted, with an excellent system of sewerage and parks and all those features which make cities attractive and tend to reduce the dente rate; while life and property are quite as secure as in any American city which is suffering from high taxes and ring domination.

"There is no secret about the way Glasgow is managed. Like every city in America, it is a corporation in which every citizen is a stockholder; but unlike American cities, it is not controlled by political parties for their own interest, rather than for the benefit of the stockholders. Politics do not enter into the municipal management of Glasgow or any other European city of note. Valuable franchises are owned and operated by the inunicipalities for the benefit of the people, though in some cases they have been granted on conditions that the beneficiaries pay into the city treasury a percentage of their earnings. In America, as a rule, valuable franchises are practically given away.

"There are a good many useful lessons we can learn from the Old World, and by no means at least valuable is that which pertains to municipal government."

A Gymnastic Pig.

A Kentncky pig has suddenly developed a genins for gymnastics and engineering which eclipse the prondest previous achievements of his race. This eminent pig was recently placed by his owner in a pasture surrounded by a high wall and ornamented by elm trees festooned with wild grapevines. The walls, however, could not confine his bold and vagrant spirit. Selecting a tree standing near the western wall of the pasture, he carefully bit loose the lower end of a stout grapevine, which was attached by its tendrils to a limb on a tree, and, taking this improvised rope in his mouth, swung himself in the air until he gathered an impetns which sent him entirely over the wall and landed him in the next field. Though often recaptured, he has constantly repeated this extraordinary feat, and his intelligent owner, Instead of entting down his elm trees to restrain his pig's wandering propensity, has decided to educate him for the trapeze business.—St. Lonis Globe-Democrat.

In the House.

Washington, Jan. 21.—The house spent the day debating the Yost-Tucker contested election case from the Tenth Virginla district. Much interest was manifested in the case owing to the fact that the Republicans on the committee which reported the case were divided, four siding with Mr. Tucker, the Democrat, and the sitting member, and bnt two with the Republican contestant, Mr. Yost. The latter is a member-elect of the next house, and Mr. Tncker is one of the most prominent and popular Democrats on the floor. The vote will be taken this afternoon at 4:30

KIDNAPED AND BADLY USED.

Masked Men Drag W. M. H. Walker Out of Bed at Midnight.

TERRE HAUTE, Ind., Jan. 21.—Yesterday morning, just after midnight, fivo stalwart, masked, but plainly colored men, battered in the front door of the residence of W. M. H. Walker, colored. 1508 South Thirteenth street, and dragged him out of bed.

After he had been brutally maltreated, he was marched down the street with a bntcher knife at his throat, and the procession proceeded in the direction of a cornfield, in the remote southeastern part of the city. Here he was held and tortured ln many ways, at ono timo being hanged from tho limb of a tree nntil there was danger of suffoca-tion. He managed to cruwl home yesterday morning and tell his story to the police, to whom the episode had been reported, and who were scouring that portion of the city all night.

Walker is accused of too much gallantry, and in this way ho had aronsed the enmity of the neighborhood.

THEY MAKE WHEELS.

And They're Going to Be Kept Busy For More Than a Year.

PORTLAND, Ind., Jan. 21.-A representativo of a Cincinnati supply firm has placed an order with the Haynes Wheel company of this city for 10,000 sets of whoels. The order is one of the largest single ones ever given and has a tendency to make the managers of the local industry feel very much elated.

The Haynes wheel factory has only been in operation a few months, but has met with wonderful success, and before the Cinelnnati order was booked had sufficient orders to run lt until next August. It has put in \$7,000 worth of improved machinery and employes 55 expert workmen in addition to the unskilled labor.

No Prospects of a Settlement.

LEADVILLE, Colo., Jan. 21.—The mine owners, it is nuderstood, will pay no attention whatever to the strikers' request for arbitration of the questions at issuo between them. E. V. Debs considers that the strikers make a mistake in rejecting the terms offered by the mine owners. The strikers preferred to follow the advice of President Boyce of the Western Federation of Miners rather than that of Debs.

Indiana Miners Accept a Reduction. TERRE HAUTE, Ind., Jan. 21.—Operators of bituminous mines along Vandalia road, east of here, who have been paying the 60-cent price asked by the men last May, now demand that the men accept 55 cents, the price which the miners of the state had to accept a month ago as a result of the eightmonths' strike.
